

# DIVERSITY

*“Real people, real stories, real results.”*

**OUR TEAM OF 35 MEMBERS** symbolizes international diversity and unity. Many of our team members, balancing hard work and family responsibilities, dedicate a significant portion of their income to ensuring their children receive quality education and health care for their aging parents. This often means making difficult choices, such as leaving one's family in rural areas to seek better opportunities in the city. Despite the pain of these separations, they are made in the hope of building a brighter future for their loved ones.

Our community is varied, including LGBTQ persons, both males and females, as well as Buddhists, Christians, Muslims, and disabled individuals. Our members come from various regions in Thailand, each with their own languages and cultural perspectives. We value all kinds of people and experiences, creating a friendly and dynamic work environment. This diversity is our strength, empowering us to come together and innovate in ways that mirror the complexities of our world. It also creates an environment where everyone values and gets to hear one another, leading to meaningful interaction

We have a team with people of all ages, and each one brings along the perspective of a different life stage. This generational diversity elevates our discussions and decision-making processes, thus enabling us to look at problems from multiple angles. We believe this helps people learn from each other and understand and work with each other.

## Sharing Meals, Sharing Stories

We're proud of our differences in our food, music, and traditions. From regional foods to various musical genres, our gatherings are something our senses will never tire of. We share meals that reflect our backgrounds, and through this sharing, we learn and grow together. Our ability to appreciate different cultures makes our experiences even richer.
